

## Kishan Pathshala

**"Kishan Pathshala"** () is an initiative aimed at educating and empowering farmers by providing them with knowledge and skills in modern agricultural practices. The main aim of Kishan Pathshala is to improve agricultural productivity, sustainability, and profitability for farmers by offering training and information on various aspects of farming, such as crop management, soil health, irrigation techniques, pest control, and the use of modern technology.

This initiative seeks to bridge the gap between traditional farming methods and new, more efficient practices, ultimately helping farmers to increase their income and improve their livelihoods.
