

Case Study

Wheat cultivation was done by Rohit turi at jaraki village and production was very good because 20 kg wheat seed provided by JTDS for 50 desimal land and yield was too good and he get 130 kg wheat from 20 kg seeds.

Rohit turi is very happy to wheat cultivation. Its only possible through BLKS staff, They are give him suggestions time to time for irrigation, plant diseases protection and give him fertilizers.

Block of Amrapara in jaraki village people did not cultivate Wheat cultivation before this year because there people was not known about to cultivation of wheat and this year Wheat Cultivation was possible only efforts of JTDS and BLKS Staffs. Jaraki village Block of Amrapara people did not cultivate Wheat cultivation before this year because there people was not known about to cultivation of wheat and this year Wheat Cultivation was possible only efforts of JTDS and BLKS Staffs, Wheat cultivation was too good in this year and jaraki's people getting very Happy. Now Jaraki people are very excited to cultivation of Kharif season and Ravi Season.
